

Another exciting step we're taking to keep our oceans clean and healthy is a connection with the Save the Med Foundation. This Mallorca based organisation works tirelessly to recover and rejuvenate the rich biodiversity of the Mediterranean Sea. Their environmental projects include managing marine protected areas, safeguarding vulnerable species, and joining forces with people and companies to work towards a Plastic Free Balearics.

The MHC team is organising a fundraiser to help support Save the Med's incredible work.

## PORT ADRIANO

# MULTIHULLCUP MALLORCA

Racing to restore the health of the ocean

# CLEAN REGATTAS

### WASTE DISPOSAL

Port Adriano provide large recycling bins, accessed in the car park below the restaurants.

### VEGAN OR VEGETARIAN

All our catering has taken into account vegan and vegetarian guests. If you haven't told the event team of your dietary requirements, please get in touch.

### PAPERLESS EVENT MANAGEMENT

All information about the schedule, notice of race, sailing instructions and results can be found on our website, for download.

The MHC Team is grateful for the role everyone plays in protecting the beautiful island of Mallorca and our oceans across the globe.

THANK YOU

You might be wondering how we manage to do it, at a sailing regatta in the scorching summer sun with about 80 guests a day? The answer is – teamwork! Rigging Projects has stepped up once again to make our regatta more sustainable and sponsor Clean Waves gigantic refillable water station. Tobias Hochreutener is the company’s managing director.

The Multihull Cup is a registered Sailors for the Sea Clean Regatta, it’s the world’s only environmental certification system for water based events.

How are we aiming to reduce our impact with these best practises?

- Eliminate Single-Use Water Bottles and Provide Water Refill Stations
- Eliminate Plastic Straws
- Serve Food with Plastic-Free Dinnerware
- Use or Provide Reusable Bags
- Community Involvement

Rigging Projects will sponsor specially selected reusable water bottles for our competitors. The Ocean Bottle is part stainless steel and part ocean-bound recycled plastic. That’s the plastic that litters coastlines and gets flushed out to sea unless someone intervenes. Every Ocean Bottle bought funds the collection of 1000 plastic bottles in weight.

*"That’s a sustainable ethos we are happy to stand behind, and a bottle we’re proud to put our logo alongside. We are all reliant on healthy oceans and the more this sentiment is at the forefront of peoples minds, the better,"* says Hochreutener

*"We're lucky to count most of the participants amongst our clients. The opportunity to support and help promote these type of multihull events, this side of the Atlantic, is very important to us."* says Hochreutener
